EXOTIC FOODS

Tiet Canh (Vietnam) is made from fresh duck blood, mixed with meat, peanuts or herbs.

WARM UP

Exotic food is food that is unusual or different from what you normally eat. It often comes from other countries and can have unique flavors, unusual ingredients, or specialized cooking methods that you might not be used to. Some examples of exotic food are fugu from Japan, century eggs from China, escargot (snails) from France, or insects like fried crickets from some Asian and African countries.

READING

What is Fugu?

P1 Fugu is a **special** type of fish that people eat in Japan. It is **considered exotic** for a few reasons. First of all, fugu has a **delicate flavor** and a **chewy texture** that is different from other fish. This special **taste** makes it exotic. Fugu is not common in everyday meals. Only special **chefs** who learn how to **prepare** it can **serve** it **safely**. This makes eating fugu a **rare** and **unique** experience. Some parts of the fugu fish are **poisonous**. If it is not prepared **correctly**, it can make people very sick or even cause death. The **danger** makes eating fugu **exciting** for some people. Because it is hard to prepare and important in **culture**, fugu is often very expensive. Not everyone can **afford** to eat it, which makes it even more special. These reasons make fugu an exotic and special food that people enjoy in Japan.

The Legend of Fugu

P2 Long ago, in Japan, there was a special fish called fugu. Fugu was a very tasty fish, but it was also very dangerous. Some parts of the fish had poison in them. If someone ate the wrong part, they could get very sick or even die.

P3 One day, a brave chef **decided** to learn how to prepare fugu safely. He studied hard and learned which parts of the fish were safe to eat. He also learned how to **remove** the poisonous parts. Many people were **scared** to eat fugu, but the brave chef wanted to show them it could be safe and delicious.

P4 The chef prepared the fugu **carefully** and served it to the people. They were **nervous**, but they **trusted** the chef. When they tasted the fugu, they loved it! It was so delicious and special. The people were very happy and thanked _____ for his hard work.

P5 From then on, only **specially** trained chefs were **allowed** to prepare fugu. They had to pass many tests to make sure they knew how to do it safely. Eating fugu became a special experience in Japan, and people **admired** the skill of the chefs who prepared it. Even today, fugu is still a special and delicious dish in Japan. People remember the brave chef who made it possible for everyone to enjoy **it** safely.

EXTRA CONVERSATION EXERCISE

Instructions: Select one of the two exotic French dishes given below, and use the information about it to make a conversation between two friends.

A Escargot, a French exotic food, consists of land snails cooked with garlic butter and often herbs such as parsley and thyme. While snails are not uncommonly eaten in many parts of the world, they're considered exotic because they are not a common food for people.

B Foie gras is often considered an exotic food due to its unique production process, distinct flavor, and cultural importance. Foie gras is made from the liver of specially fattened ducks or geese. The birds are force-fed to enlarge their livers. Foie gras has a rich, buttery texture and a delicate, savory taste that makes it different from other types of meat.
